Skilled Trades Ontario is a new Crown agency responsible for skilled trades certification in Ontario, which includes:

- **Establishing apprenticeship programs**, including training standards, curriculum standards and certification exams
- **Assessing experience and qualifications** of individuals who have not completed an apprenticeship program in Ontario
- **Issuing Certificates of Qualification** in all trades with certifying exams
- **Renewing Certificates of Qualification** in compulsory trades
- **Maintaining a Public Register** of people authorized to work in compulsory trades
- **Conducting research** in relation to apprenticeship and the trades

Skilled Trades Ontario is currently seeking a Desktop Support Analyst. The Desktop Support Analyst assists staff with technical support of desktop computers, applications and related technology at Skilled Trades Ontario (STO). In this role, areas of support include: specification, installation and testing of computer systems and peripherals within established standards and guidelines. Activities require interaction with application software and operating systems to diagnose and resolve unique, non-recurring problems. The position utilizes one-on-one consultancy to end-users, while also performing maintenance and testing of the network servers and associated equipment.

Responsibilities:

- Provides Service Desk support to users via phone, email or desk side, as required;
- Responsible for resolving tickets and service requests, related to laptops, desktops, peripherals (e.g. printers, monitors, IP phones, etc.), accessories (e.g. mice, keyboards, headsets, etc.), mobile devices and STO's supported applications;
- Provides account management services including: set-up, change and removal of accounts (login ID's) that provide access to the applications and data in the current infrastructure environment. Additional activities under the account management services include: creating and administering network access and email distribution lists and ensuring documentation and policies are maintained;
- Collects, organizes and documents all problems and solutions in the Service Desk ticketing System;
- Develops, implements, and/or participates in the preparation of training for the Service Desk; assists with maintaining up to date material;
- Updates and maintains inventory records in the Service desk management system;
- Responsible for the installations, upgrades and imaging of laptop and desktops;
- Leads and participates in the controls surrounding end-user onboarding, exiting and internal moves;
- Assists the infrastructure team in monitoring and maintaining STO's centralized server and networks and all administrative tasks associated with their operation;
- Works with vendor support contacts to resolve technical problems with desktop computing equipment and software;
- Supports endpoint devices (including but not limited to: server, network and other backend issues);
- Trains staff on the use of hardware and software;
- Works with IT management to purchase hardware and software;
- Assists with delivering desktop technology within the scope of corporate initiatives. Ensures all audit and Information Security processes and policies are adhered to.

Qualifications:

- University or College degree in Information Technology/Systems Computer Science or related field.
- Minimum of one (1) year experience in desktop support required, with a strong customer service focus;
- Experience working in a network environment and ability to perform troubleshooting of network devices, software, printing problems;
- Experience in the creation and review of technical documentation;
- Experience working with current and emerging technologies and applications.

Knowledge of:

- Microsoft windows 10/11 TCP/IP, DNS, DHCP, network cabling, PC Imaging and software packaging;
- Supporting Microsoft Office 365 and other software applications;
- End-user technologies including: PC hardware, tablets, mobile devices and network protocols;

Skills include:

- Ability to learn new technologies and introduce them to the environment;
- Strong verbal communication skills to provide systems support and training to STO's systems users;
- Strong written communication skills to prepare systems documentation, procedures and training materials;
- Ability to communicate at all levels of the business. Able to articulate technical information to both technical and non-technical audiences;
- Strong interpersonal, troubleshooting and organizational skills;
- Ability to multitask and prioritize duties appropriately;
- Ability to work well independently, as well as part of a team;

*This position is represented by OPSEU.

*Only those candidates selected for an interview will be contacted.

How to Apply: Please forward your resume, together with a separate cover letter by February 3, 2023 to careers@skilledtradesontario.ca. Only applications submitted via email will be accepted. Be sure to quote the following competition number in the subject line of your email: STO-002-23. We thank all applicants for their interest and will contact those whose skills, knowledge, and experience most closely match the requirements of the position.

The STO embraces diversity and is committed to creating an inclusive workplace. Our goal is to attract, develop and retain highly talented employees from diverse backgrounds, allowing us to benefit from a wide variety of experiences and perspectives. In accordance with the Ontario Human Rights Code, Accessibility for Ontarians with Disabilities Act, 2005, and the STO's Accommodation Policy, accommodation will be provided at any point throughout the hiring process, provided the candidate makes their accommodation needs known to the STO. We welcome applications from all qualified persons.

The Skilled Trades Ontario is an equal opportunity employer.
